

Redmine - Defect #29708

Wrong use of refute_includes in tests

2018-10-01 21:49 - Felix Schäfer

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Go MAEDA	% Done:	0%
Category:	Code cleanup/refactoring	Estimated time:	0.00 hour
Target version:	4.0.0	Affected version:	
Resolution:	Fixed		
Description			
<p>The refute_includes assertion expects the collection first and the object to test for after. The test in source:/trunk/test/functional/queries_controller_test.rb@17558#L627 uses the object then collection form though.</p> <p>It seems most of Redmine tests use source:/trunk/test/test_helper.rb@17558#L205 <code>assert_not_include</code> which expects the object then collection form. The following patch corrects this problem:</p> <pre>--- a/test/functional/queries_controller_test.rb +++ b/test/functional/queries_controller_test.rb @@ -645,7 +645,7 @@ class QueriesControllerTest < Redmine::ControllerTest # response includes systemwide visible version assert_include ["OnlineStore - Systemwide visible version", "7", "open"], json # response doesn't include non visible version - refute_includes ["Private child of eCookbook - Private Version of public subproject", "6", "open"], json + assert_not_include ["Private child of eCookbook - Private Version of public subproject", "6", "open"], json end def test_subproject_filter_time_entries_with_project_id_should_return_filter_values</pre>

Revision 17559 - 2018-10-02 04:12 - Go MAEDA

Wrong use of refute_includes in tests (#29708).

Patch by Felix Schäfer.

History

#1 - 2018-10-02 02:10 - Mizuki ISHIKAWA

That makes sense to me.

```
refute_includes json, ["Private child of eCookbook - Private Version of public subproject", "6", "open"]
```

Although the test works with the above code, `refute_includes` is only used in redmine at three places. `assert_not_include` is more familiar.

#2 - 2018-10-02 03:38 - Go MAEDA

- Category set to Code cleanup/refactoring

- Target version set to 4.1.0

#3 - 2018-10-02 04:14 - Go MAEDA

- Status changed from New to Closed

- Assignee set to Go MAEDA

- Target version changed from 4.1.0 to 4.0.0

- Resolution set to Fixed

Committed. Thanks.
