Redmine - Defect #2980

Upper-case / lower-case discrepancy in attachment image syntax

2009-03-16 12:34 - Benjamin Baroukh

Status:	Closed		**Start date:**	
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:			**Estimated time:**	0.00 hour
Target version:				
Resolution:			**Affected version:**	0.7.3

Description

Affects all wiki-ish pages (issues included).
When you attach a file "myimage.GIF" with an upper-case extension and inline it using

```
!myimage.GIF!
```

the image does not appear although the code is not displayed.

Example:
Should be a red square here red_square.GIF

In the source of this description, red_square.GIF is inlined but does not appear.
But when you inline it using lower-case although the attachment name extension is in upper-case

History

#1 - 2009-03-16 12:34 - Benjamin Baroukh

- Status changed from New to Resolved

I guess it has been corrected ;)

#2 - 2009-03-16 23:11 - Jean-Philippe Lang

- Status changed from Resolved to Closed

Indeed. I think it was fixed in 0.8.1.
