

Redmine - Feature #2984

Emails from redmine should include headers that don't trigger vacation auto-responders

2009-03-16 17:10 - Guy Bolton King

Target version:	0.8.3		
Resolution:	Fixed		
Description			
<p>I'm afraid the fix proposed in #2879 doesn't work for Outlook/Exchange. My apologies for not doing enough research! Ticket 5288 in the trac project, and the end of this post on the MS Exchange Team blog suggest that adding:</p> <p>Precedence: bulk</p> <p>...to outbound emails will do the trick.</p> <p>(I haven't re-opened #2879 since the subject line would have been misleading).</p>
