Redmine - Defect #29853

Default plugin value is not

2018-10-26 20:47 - Vitaly Krivenko

Status:	New		**Start date:**	
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	Plugin API		**Estimated time:**	0.00 hour
Target version:				
Resolution:			**Affected version:**	3.4.6

Description

Currently the default setting value is not created regarding its setting in init.rb file. Tried various ways to store but both are not working and there is no default value:

settings :default => { :weeklabel_name => 'Weekly Label' }, :partial => 'settings/settings'
settings :default => { 'weeklabel_name' => 'Weekly Label' }, :partial => 'settings/settings'

After editing the default value in settings dialog it is properly retrieved and saved further on. Only first time reading is not working. Checking through database reveals that Settings table does not contain the newly defined default value.

History

#1 - 2018-11-03 07:52 - Go MAEDA

- Category changed from Core Plugins to Plugin API

#2 - 2022-04-07 10:39 - keineahnung 2345

I am using Redmine 4.1.2.stable, and default values specified in plugin's `init.rb` are not used too.
