Description

<http://demo.redmine.org> has been offline for some time now. I could setup and manage a demo site on my server. I already have a set of scripts to populate the database with some demo data and plenty of room (thanks to Passenger).

Jean-Philippe, what do you think?

It would be great indeed!

#2 - 2009-03-20 00:42 - Eric Davis

- Status changed from New to 7

I'll set it up and then contact you about switching the demo.redmine.org DNS.

- Assignee changed from Eric Davis to Jean-Philippe Lang

- % Done changed from 0 to 90

I've setup a Redmine demo on [Heroku](http://heroku.com) with some demo data.

Jean-Philippe Lang, can you change the DNS for demo.redmine.org to point to Heroku now? They need a CNAME for demo.redmine.org to go to heroku.com. <http://docs.heroku.com/custom-domains#registrar-setup>

Thank you.

#4 - 2009-06-14 10:45 - Jean-Philippe Lang

- Status changed from 7 to Closed

- Resolution set to Fixed

Done. Thanks.
