Description	
<p>Hi,</p> <p>I'm just using the Redmine program. First of all, I would like to thank everyone who contributed. I created a project. want to define workflows.</p> <p>It's like you don't move from one job to the next. And on the other hand I want to create a work flow diagram. If it's not possible, let's create it.</p> <p>Can the above mentioned issues be made?</p> <p>Thank you for your interest.</p>
