

Redmine - Feature #30112

Option to stop sending reminders on non-working days

2018-12-06 03:09 - Go MAEDA

Status:	New	Start date:	
Priority:	Normal	Due date:

Category:	Email notifications	Estimated time:	0.00 hour
Target version:	Candidate for next major release		
Resolution:			
Description			
<p>Currently, Redmine sends reminders every day regardless of the non-working days setting (in "Administration" > "Settings" > "Issue tracking" page). But I don't want to receive reminders on weekends. Maybe many people think so :)</p> <p>I think it would be a nice improvement to have an option in the My account page to set whether the user wants to receive email reminders on non-working days (e.g. a checkbox with a label "I don't want to receive email reminders on non-working days" in the "Email notifications" box).</p> <p>I implemented a similar feature in my plugin (redmine extended reminder) in the past.</p>

P.S. I'm thinking... there is lots of things (from minor fixes to huge features) that numerous developers out there had already implemented as plugins, which probably should have been in Redmine in the first place. Maybe one of the major plans of the community in the future could be to conspire with plugin developers in order to have them (or us, if they allow it) to port their code into the actual patches. This could be time saving for everyone, as we'd be skipping the need for doing it from scratch I guess. :D

On the My account Email notifications page, set whether users will not receive email reminders on non-working days.

I made a patch, and attach it.
