

## Redmine - Feature #3013

### Several hooks needed for a plugin (context menu and page top)

<b>Description</b>			
<p>In order to allow a plugin to change the issues context menu I would need a hook in <code>app/views/issues/context_menu.rhtml</code> at the end.</p> <p>Also I would like to show a status for the current user under the search box and project selector, so I think another hook in <code>quick-search</code> div after the project selector partial would help.</p> <p>Thanks!</p>			

#### Associated revisions

##### Revision 2610 - 2009-03-21 01:01 - Eric Davis

Added plugin hooks to the context menu

- `:view_issues_context_menu_start`
- `:view_issues_context_menu_end`

#3013

- *Resolution set to Fixed*

I've added two hooks in r2610, `:view_issues_context_menu_start` and `:view_issues_context_menu_end`. For the quick-search div, could you use CSS to position the elements up there? I'm not sure if a hook there would be worth the maintenance.
