## Redmine - Feature #3013

## Several hooks needed for a plugin (context menu and page top)

# Resolution: Description

In order to allow a plugin to change the issues context menu I would need a hook in app/views/issues/context menu.rhtml at the end.

Also I would like to show a status for the current user under the search box and project selector, so I think another hook in *quick-search* div after the project selector partial would help.

Thanks!

Fixed

Added plugin hooks to the context menu

- :view\_issues\_context\_menu\_start
- :view\_issues\_context\_menu\_end

#3013

## History

### #1 - 2009-03-21 00:58 - Eric Davis

- Status changed from New to Resolved
- Target version set to 0.8.3
- % Done changed from 0 to 100
- Resolution set to Fixed

I've added two hooks in <u>r2610</u>, :view\_issues\_context\_menu\_start and :view\_issues\_context\_menu\_end. For the quick-search div, could you use CSS to position the elements up there? I'm not sure if a hook there would be worth the maintenance.

# #2 - 2009-04-05 14:11 - Jean-Philippe Lang

- Status changed from Resolved to Closed

Committed in 0.8-stable in r2654.
