<b>Category:</b>	Attachments	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>		<b>Affected version:</b>	3.4.7
<b>Resolution:</b>			
<b>Description</b>			
Hi,			
I found an upload issue for anonymous users, here is the details to re-produce the issue:			
<ol style="list-style-type: none"><li>1. Anonymous role: keep default setting, i.e. NO "Add Issue" permission</li><li>2. Reporter role: keep default setting, i.e. HAS "Add Issue" permission</li><li>3. Create a project</li><li>4. Add Anonymous users to members list of the project, as Reporter</li><li>5. Now Anonymous user can Add Issue and save</li><li>6. However, while uploading file, authentication box will popup</li><li>7. If I change Anonymous role to check "Add Issue", file upload is ok</li></ol>			
The expected result is:			
When Anonymous users added to project as reporter, they can add issue and can upload files, without the needs to change Anonymous role, which will affect all public projects			
<b>Environment:</b>			
Redmine version	3.4.7.stable
