

Redmine - Patch #3019

Add hook to successful_authentication method

2009-03-20 18:39 - Brad Beattie

Status:	Closed	Start date:	2009-03-20
Priority:	Normal	Due date:	
Assignee:	Eric Davis	% Done:	100%
Category:	Plugin API	Estimated time:	0.00 hour
Target version:	0.8.3		
Description			
The attached patch provides a hook called after successful authentication and before the redirect call.			
It's necessary for plugins that, for instance, notify users of changes since their last login.			

Associated revisions

Revision 2609 - 2009-03-21 00:52 - Eric Davis

Added a plugin hook for :controller_account_success_authentication_after

#3019

History

#1 - 2009-03-20 19:41 - Eric Davis

- Category changed from Accounts / authentication to Plugin API
- Status changed from New to 7
- Assignee set to Eric Davis

I'll need to rename it to follow the standard but there shouldn't be any problem committing it.

Naming details: <http://www.redmine.org/issues/1677#note-15>

#2 - 2009-03-21 00:49 - Eric Davis

- Status changed from 7 to Resolved
- Target version set to 0.8.3
- % Done changed from 0 to 100

Added in [r2609](#), use :controller_account_success_authentication_after

#3 - 2009-03-21 01:00 - Brad Beattie

Sweet. Thanks. I have it in my mind to add more hooks in more locations to help with plugin development, but a bit at a time might be best, yeah? :)

#4 - 2009-03-21 01:18 - Eric Davis

Yes, I'm only trying to add hooks in places that are:

1. Actually needed by someone
2. Would be useful for more than one plugin

Like any API, the hooks have a cost that we need to be aware of.

#5 - 2009-04-05 14:02 - Jean-Philippe Lang

- Status changed from Resolved to Closed

Backported in 0.8-stable in [r2652](#).
