Affected version:

Description

When viewing the list of issues, right-click the issue to be deleted, and then click delete. Redmine crashes with a "500 Internal Server Error".

Error log:

ActiveRecord::StatementInvalid (TinyTds::Error: The ORDER BY clause is invalid in views, inline functions, derived tables, subqueries, and common table expressions, unless TOP, OFFSET or FOR XML is also specified.: EXEC sp_executesql N'DELETE FROM [custom_values] WHERE [custom_values].[id] IN (SELECT [custom_values].[id] FROM [custom_values] LEFT OUTER JOIN [custom_fields] ON [custom_fields].[id] = [custom_values].[custom_field_id] WHERE [custom_values].[customized_id] = @0 AND [custom_values].[customized_type] = @1 ORDER BY custom_fields.position); SELECT @@ROWCOUNT AS AffectedRows', N'@0 int, @1 nvarchar(30)', @0 = 13895, @1 = N'Issue'):`

Environment:
Redmine version 4.0.0.devel (cloned from GIT master branch)
Ruby version 2.5.3-p105 (2018-10-18) [x64-mingw32]
Rails version 5.2.2
Environment production
Database adapter SQLServer
Mailer queue ActiveJob::QueueAdapters::AsyncAdapter
Mailer delivery smtp
SCM:
Git 2.20.0
Filesystem
Redmine plugins:
redmine_agile 1.4.7

- Subject changed from Application crash when deleting an issue from issue list to Application crash when deleting an issue from issue list with SQLServer

#2 - 2018-12-14 02:28 - Go MAEDA
- Related to Defect #30211: Crash with the message "undefined method 'alias_method_chain'" when connecting to Microsoft SQL Server added
Hi Go MAEDA, this issue isn't related (in my opinion) to Defect #30211.

This issue occurs once Redmine is up and running. Users were accessing the website and creating/updating tickets as normal. The error reported only occurred when trying to delete a ticket.

- Related to Defect #30285: Microsoft SQL server support is broken added
- Related to deleted (Defect #30211: Crash with the message "undefined method `alias_method_chain" when connecting to Microsoft SQL Server)

- Status changed from New to Closed
- Resolution set to Fixed

The issue is going to be fixed in the upcoming Redmine 4.1.1 and 4.0.7 (#30285).
