

Redmine - Defect #30256

Cannot make cross-project wiki link if the project name includes square brackets

2018-12-20 12:43 - Go MAEDA

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Go MAEDA	% Done:	0%
Category:	Text formatting	Estimated time:	0.00 hour
Target version:	4.0.3	Affected version:	
Resolution:	Fixed		
Description			
<p>According to the Wiki formatting help, You can link to wiki pages of another project using the following syntax.</p> <pre>[[sandbox:some page]] [[sandbox:]]</pre> <p>However, it does not work if the name of the destination project includes "[" or "]" character.</p> <p>For example, suppose that there is a project named "[Foo]Bar". If you want to link to wiki pages in the project, the syntax is "[[[[Foo]Bar:PageName]]]". However, it does not generate any link.</p> <p>screenshot@2x.png</p>

Revision 17906 - 2019-02-28 00:44 - Go MAEDA

Cannot make cross-project wiki link if the project name includes square brackets (#30256).

Patch by Yuichi HARADA.

Revision 17912 - 2019-03-03 02:46 - Go MAEDA

Merged r17906 from trunk to 4.0-stable (#30256).

History

#1 - 2018-12-21 00:41 - Go MAEDA

- Related to Defect #20397: project:someproject wiki syntax should link to project with identifier "someproject", not name. added

#2 - 2019-01-11 07:06 - Yuichi HARADA

- File 30256-make-wiki-link-includes-brackets.patch added

I reviewed the regular expression as follows.(Change from "greedy quantifier" to "lazy quantifier")

https://ruby-doc.org/core-2.6/doc/regexp_rdoc.html#label-Repetition

I attached a patch.

```
diff --git a/app/helpers/application_helper.rb b/app/helpers/application_helper.rb
```
