

Redmine - Defect #3027

Wiki start page shouldn't be capitalized automatically

2009-03-23 11:59 - Mathias Maul

Status:	New	Start date:	2009-03-23
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Wiki	Estimated time:	0.00 hour
Target version:		Affected version:	2.2.2
Resolution:			
Description			
When setting a start page for a project's wiki, its name is capitalized automatically (e. g., abc01 becomes Abc01), which I find quite unnerving.			
Of course, it is easy to rename the page afterwards but seems like a task that shouldn't be necessary.			
Version tested: 0.8.2.stable.2570			

History

#1 - 2013-02-06 10:34 - Daniel Felix

- Affected version (unused) changed from 0.8.2 to 2.2.2
- Affected version changed from 0.8.2 to 2.2.2

I checked it with the current release. This is still occuring.

The upcasing occures in:
<source:/trunk/app/models/wiki.rb#L94>

By commenting this line out, it should work.
