

Redmine - Defect #30512

Search results with wiki formatting

2019-01-28 18:17 - Luis Blasco

Status:	New	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Search engine	Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:			
Description			
Search results are not shown in a correctly formatted text; they also show the encoding used for the formatting (cursive, bold, links...) of the original text. Shouldn't the results be shown directly in the formatted text?
