## Redmine - Defect #30512

## Search results with wiki formatting

2019-01-28 18:17 - Luis Blasco

Status: New Start date:

Priority: Normal Due date:

Assignee: % Done: 0%

Category: Search engine Estimated time: 0.00 hour

Resolution: Affected version:

**Description** 

Target version:

Search results are not shown in a correctly formatted text; they also show the encoding used for the formatting (cursive, bold, links...) of the original text. Shouldn't the results be shown directly in the formatted text?
