My redmine checkout trunk revision 2636.

I had removed all permission and roles anonymous, view attachments, my environment not authentication required, but anonymous users may view my profile and issues...

Is it a bug?

No, it's not a defect. If you don't want anonymous users to view anything, just force authentication.
In 0.9, you'll be able to remove 'view issues' permissions from the anonymous role, but anonymous users will still be able to view users' accounts.
