History

#1 - 2019-01-30 09:41 - Bernhard Rohloff

I can reproduce this issue on my upgraded production instance. Surprisingly it doesn't occur in my development setup.

I can confirm the problem.

status translations are evaluated only once during start of the server, see
https://github.com/redmine/redmine/blob/4e9886f9b5d4df10cd76d67312c06b8af5a17903/app/models/project.rb#L28

as a result it'll always be in english or translation missing (in combination with some 3rd party plugins).

QueryTest#test_project_statuses_values_should_return_only_active_and_closed_statuses should also be fixed because the test always expects english strings even if the current locale is different

```
Expected: [["active", "1"], ["closed", "5"]]
  Actual: [["actif", "1"], ["fermé", "5"]]
```
