Category: UI  Target version: 4.0.2
Resolution: Fixed

Description

When I follow e.g. the link message#4, the forum page opens without any indication where the linked reply message is.

In Redmine 4.x, the linked issue notes (#22978) and wiki sections (#28330) is emphasized.

My patch have the linked reply message visually emphasized like these:

screenshot_highlight_the_linked_message.png

As noticed in #28330#note-4, I believe this improvement should be applied to the version 4.x.x stream.

Indeed. I forgot to create an issue at that time. I think the fix should be delivered in 4.0.2.
I confirmed that the patch will work for me.

- Subject changed from Link to forum reply-message headings should highlight the linked heading to Links to forum replies should highlight the linked reply
- Status changed from New to Closed
- Assignee set to Go MAEDA
- Resolution set to Fixed

Committed the patch. Thank you for your contribution.
