+1 It would be very good to get this, as we have to hide our estimations from some roles :(

- File `add_permission_view_estimated_hours.png` added

- File `3088.patch` added

Add "View estimated hours" permission to the "Roles and permissions".

`add_permission_view_estimated_hours.png`

If the project has the "Time tracking" module enabled and the role has "View estimated time" permission enabled, the "Estimated hours" field is available.

I attached a patch.

Thank you for the patch. But I am hesitant to make this patch a candidate for 4.2.0. This is because existing users who can currently see estimated hours will lose access to it after applying the patch because view_estimated_hours will not be granted to no roles by default.
