Redmine - Feature #30977

Add CSS class to project custom fields

2019-03-06 08:36 - Go MAEDA

Status:	Closed		**Start date:**

Category:	UI		**Estimated time:**	0.00 hour
Target version:	4.0.3			
Resolution:	Fixed			

Description

Project custom fields displayed on the Overview page does not have any CSS class. This makes it difficult for users to style those fields shown on the page.

I think those fields should have a proper CSS class that identify the custom field.

[Current]

```
<ul>
    <li><span class="label">Homepage:</span> <a href="http://ecookbook.somenet.foo/">
http://ecookbook.somenet.foo/</a></li>
    <li><span class="label">Development status:</span> Stable</li>
</ul>
```

[With the proposing improvement]

```
<ul>
    <li><span class="label">Homepage:</span> <a href="http://ecookbook.somenet.foo/">
http://ecookbook.somenet.foo/</a></li>
    <li class="cf_9"><span class="label">Development status:</span> Stable</li>
</ul>
```
