Redmine - Patch #31035

Remove redefinition of ActionMailer::LogSubscriber#deliver which is no longer necessary because of the removal of Setting.bcc_recipients

Description

If the patch #30820 that drops "Blind carbon copy recipients (bcc)" setting is accepted, we can remove the workaround for #12090 that fixes the issue that email recipients are not logged when the setting is enabled, because emails will always be sent using To.
