

## Redmine - Feature #3105

### Roadmap and subprojects dependencies.

2009-04-02 09:28 - Adam Kubica

<b>Status:</b> Closed	<b>Start date:</b> 2009-04-02
<b>Priority:</b> Normal	<b>Due date:</b>
<b>Assignee:</b>	<b>% Done:</b> 0%
<b>Category:</b> Roadmap	<b>Estimated time:</b> 0.00 hour
<b>Target version:</b>	
<b>Resolution:</b> Fixed	
<b>Description</b>	
Roadmap doesn't include progress of the subprojects.  Try imagine situation as in example: Main project version 3.0 depends of: <ul style="list-style-type: none"><li>- subproject 1, version 1.0</li><li>- subproject 2, version 1.3</li><li>- subproject 3, version 0.8</li></ul> Good solution might be when subproject version can be optionally assigned to version of the main project, in this case roadmap diagram can compute and additionally display progress bar including subprojects.

#### History

##### #1 - 2009-04-06 13:29 - Fabian Buch

Might be related to #465. Would be very useful for project release management.

+1, count me on this one

it would also be pretty nice, and much simpler, being able to include subproject's tickets in a parent project version...

**#7 - 2009-12-06 11:26 - Jean-Philippe Lang**

- Status changed from New to Closed

- Resolution set to Fixed

| Good solution might be when subproject version can be optionally assigned to version of the main project

Version inheritance added in r3123.
