

Redmine - Defect #31087

Deleting a version silently deletes its attachments

2019-03-24 03:24 - Go MAEDA

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Go MAEDA	% Done:	0%
Category:	Files	Estimated time:	0.00 hour
Target version:	3.4.10	Affected version:	
Resolution:	Fixed		
Description			
Deleting a version which has one or more attachments unexpectedly succeeds if no issues are associated with the version.			
You can reproduce the problem with the following steps:			
<ol style="list-style-type: none">1. Create a new version2. Open the "Files" tab in the project menu3. Attach a file to the version4. Delete the version. Attached files are deleted along with the version without warning			
I think Redmine should not allow deleting a version with attachments.			
The problem was originally reported by Karel Pičman in #1265#note-6 . He also provided a patch .			

Associated revisions

Revision 18008 - 2019-03-26 12:05 - Go MAEDA

Fix that deleting a version silently deletes its attachments (#31087).

Patch by Karel Pičman and Takenori TAKAKI.

Revision 18009 - 2019-03-26 15:39 - Go MAEDA

Merged r18008 from trunk to 4.0-stable (#31087).

Revision 18010 - 2019-03-26 15:41 - Go MAEDA

Merged r18008 from trunk to 3.4-stable (#31087).

1. Create a new version
2. Open the "Files" tab in the project menu
3. Attach a file to the version
4. Delete the version. Attached files are deleted along with the version without warning

I think Redmine should not allow deleting a version with attachments.

I could reproduce this problem on my environment. I also think that Redmine should not allow deleting the version with attachments. I made a patch that added test code to the Karel Pičman's patch.

#3 - 2019-03-26 10:12 - Go MAEDA

- Target version set to 3.4.10

Setting the target version to 3.4.10.

#4 - 2019-03-26 12:06 - Go MAEDA

- Subject changed from *Deleting a version deletes files attached to the version without warning* to *Fix that deleting a version silently deletes its attachments*
- Status changed from *New* to *Resolved*
- Assignee set to *Go MAEDA*
- Resolution set to *Fixed*

Committed the patch. Thank you.
