Committed the patch. Thank you for updating the translation.

I found there is still one untranslated string error_not_allowed_to_log_time_for_other_users in gl.yml. You can make gl.yml perfect if you could translate the string.

Sorry, I made a typo on that string:

```
- error_not_allowed_to_log_time_for_nother_users: Vostede non ten permitido imputar tempo para outros usuarios
+ error_not_allowed_to_log_time_for_other_users: Vostede non ten permitido imputar tempo para outros usuarios
```

Thanks for checking. I attach the corrected file.
