Redmine - Defect #31132
Remove unused column trackers.is_in_chlog

2019-04-02 11:23 - Go MAEDA

Status: New
Priority: Normal
Assignee: Jean-Philippe Lang
Category: Code cleanup/refactoring
Target version: 4.2.0
Resolution: 4.2.0

Description

The column "is_in_chlog" in "trackers" table can be removed safely. It was used to control former
[[RedmineIssueChangelog|Changelog]] view which has been dropped in r3162 (Redmine 0.9.0). After that, the column is no longer
used.

$ grep -r is_in_chlog *
  db/migrate/20180923091603_change_sqlite_booleans_default.rb: "is_in_chlog" => false,
  db/migrate/001_setup.rb: t.column "is_in_chlog", :boolean, :default => false, :null => false
  db/migrate/20180923082945_change_sqlite_booleans_to_0_and_1.rb: Tracker => ['is_in_chlog', 'is_in_roadmap'],
  lib/redmine/default_data/loader.rb: Tracker.create!(:name => l(:default_tracker_bug), :default_status_id => new.id, :is_in_chlog => true, :is_in_roadmap => true, :position => 1)
