Target version:			
Description			
Hello			
<p>The Information page shows some useful data about the current environment. But one important information is missing: the app server.</p> <p>So here is a patch which adds this information to the list.</p> <p>Thank you</p> <pre>diff --git a/app/controllers/admin_controller.rb b/app/controllers/admin_controller.rb --- a/app/controllers/admin_controller.rb +++ b/app/controllers/admin_controller.rb @@ -77,5 +77,6 @@ class AdminController < ApplicationController [:text_rmagick_available, Object.const_defined?(:Magick)], [:text_convert_available, Redmine::Thumbnail.convert_available?]] + @request = request end end diff --git a/app/views/admin/info.html.erb b/app/views/admin/info.html.erb --- a/app/views/admin/info.html.erb +++ b/app/views/admin/info.html.erb @@ -12,7 +12,7 @@ </table>
