

Redmine - Defect #31157

"Markdown" becomes unavailable from Redmine 4.0.3

2019-04-06 09:44 - Hisazumi MIYAKE

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Administration	Estimated time:	0.00 hour
Target version:		Affected version:	4.0.3
Resolution:	Invalid		
Description			
After upgrading Redmine 4.0.1 => 4.0.3, [Administration] - [Settings]-[General]-[Text formatting] setting's "Markdown" option becomes unavailable. We are using bitnami redmine-stack installer, version 4.0.3 (bitnami-redmine-4.0.3-0-windows-x64-installer.exe). I apologize for my poor English skills.			

History

#1 - 2019-04-06 10:05 - Go MAEDA

I recommend you to contact the BitNami team because I think the problem is inherent in BitNami.

Redmine 4.0.3 supports Markdown but "Markdown" option does not appear in the "Text formatting" setting if redcarpet gem is unavailable.

#2 - 2019-04-19 03:57 - Hisazumi MIYAKE

- Status changed from New to Resolved

Hi.

Thank you for your reply.
I contacted the Bitnami team.
I got the workaround.

Thanks.

#3 - 2019-04-19 08:41 - Go MAEDA

- Status changed from Resolved to Closed

- Resolution set to Invalid

Thank you for the feedback.

For those who are still affected by this issue:
You can fix the issue by migrating to BitNami Redmine 4.0.3-2 or later.
[Can't Select Markdown on 4.0.3-0 - Redmine - Bitnami Community](#)

- File *Выделение_140.png* added

- File *Выделение_141.png* added

#5 - 2019-07-25 12:56 - Lev Nazarenko

Why this closed? It does not work on git cloned project (tag 4.0.4)...

UPDATE:
It can be fixed by replacing
`gem "redcarpet", "~> 3.4.0"`
to the
`gem "redcarpet", "~> 3.3.2"`
Inside the `Gemfile` (you should re-bundle and restart)...
