

Redmine - Defect #3128

Inform about custom field's name maximum length

2009-04-06 17:49 - Daniel Stoyanov

Status:	Closed	Start date:	2009-04-06
Priority:	Low	Due date:	
Assignee:		% Done:	0%
Category:	Custom fields	Estimated time:	0.00 hour
Target version:	0.9.0	Affected version:	
Resolution:	Fixed		
Description Custom field's name is limited to 30 chars, but there is no message that informs the user about that (no information text). Also when longer value is submitted the error message "Name is too long" doesn't specify the maximum length. Possible solution : put information text under the field or change the error message to something like "Name is too long. Maximum 30 characters allowed". Redmine revision: 2659
