

Redmine - Feature #3129

Previews should include status changes

2009-04-06 19:08 - Colan Schwartz

Status: Closed	Start date: 2009-04-06
Priority: Normal	Due date:
Assignee:	% Done: 0%
Category: UI	Estimated time: 0.00 hour
Target version:	
Resolution: Wont fix	

Description

When clicking on "Preview" while updating an issue, comments are previewed, but not state changes. It would be better if state changes were displayed as well.

For example, if I change the status from New to Resolved and the Priority from Normal to Urgent, I should see something like this when I click on Preview:

- **Status** changed from *New* to *Resolved*
- **Priority** changed from *Normal* to *Urgent*

History

#1 - 2013-03-18 13:06 - Dipan Mehta

+1. Also, I need to add more item to it. We use quite a few "Long text" type fields with textile formatting enable. Unfortunately preview doesn't show any of this. Personally, I actually type this first in note then copy paste it there! very ugly if I am modifying an already evolved issue.

Ideally, preview should be pretty much a full preview display allowing to full view of things.

#2 - 2013-03-18 13:36 - Daniel Felix

- *Target version set to 2.4.0*

Yes I would agree that this should be displayed in the preview too.

I set this as a candidate for 2.4, to get a rough plan of things.

Maybe I can get into it and provide a patch myself.

#3 - 2013-10-13 10:02 - Jean-Philippe Lang

- *Target version changed from 2.4.0 to Candidate for next major release*

2.4 feature freeze

#4 - 2019-02-13 10:16 - Go MAEDA

- *Status changed from New to Closed*

- *Target version deleted (Candidate for next major release)*

- *Resolution set to Wont fix*

In Redmine 4.0.0, preview link was removed and the description field has its own preview tab (see #27758). Because of that, showing status changes in the preview will be an awkward interface.
