

Redmine - Feature #313

Default end date

2007-04-03 11:03 - Jeffrey Jones

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:			
Resolution:			
Description (Maybe have this as an optional setting somewhere as it may not be for everyone) When a user raises an issue, if they specify a version but haven't yet set the end date for the issue then the end date defaults to the date of the version. This will ensure that all issues raised for a version will appear in the Gantt chart.

I think this is a pretty logical feature too. Out of interest, why was this ticket closed? The feature wasn't implemented...

#2 - 2008-01-17 08:02 - Jeffrey Jones

I closed this issue because a) I raised it but am no longer in a position to test any fixes and b) a perceived lack of interest due to no comments or movement on an old issue.

Thought I would un-clutter the tracker with my old issues.

#3 - 2008-01-18 12:44 - Elliot Winkler

I've gone ahead and made a patch for this (I also wrote up a test). Not sure how to submit it though... maybe the issue needs to be open to attach files?

#4 - 2008-01-18 12:55 - Elliot Winkler

Derrrr... maybe I should post it in the Patches tracker ;)
