

Redmine - Defect #31330

Import issues: File content preview block is scrolling

2019-05-09 08:50 - Yuichi HARADA

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Jean-Philippe Lang	% Done:	0%
Category:	UI	Estimated time:	0.00 hour
Target version:	4.0.4	Affected version:	
Resolution:	Fixed		

Description

I am showing a preview of the CSV file in /imports/mapping, but the behavior of overflow-x is strange.

expect_importfile_preview.png	actual_importfile_preview.png

The below patch fixes the problem:

```
diff --git a/public/stylesheets/application.css b/public/stylesheets/application.css
index b2a253cad..ed02f5139 100644

Revision 18243 - 2019-06-10 13:32 - Jean-Philippe Lang

Import issues: File content preview block is scrolling (#31330).

Revision 18244 - 2019-06-10 13:34 - Jean-Philippe Lang

Merged r18243 to 4.0-stable (#31330).

Thank you for reporting this issue. Do you know if the issue affects not only the trunk but also 4.0-stable or 3.4-stable?

I confirmed 3.4-stable and 4.0-stable and trunk. I found the difference between 3.4-stable and 4.0-stable. This difference was also confirmed in trunk.

```
$ diff 3.4-stable/public/application.css 4.0-stable/public/stylesheets/application.css
```

```
.....
```

```
437c453
```

```
< fieldset {border: 1px solid #e4e4e4; margin:0;}
```

```
---
```

```
> fieldset {border: 1px solid #e4e4e4; margin:0; min-width: inherit;}
```

```
.....
```

Based on this, I rebuilt the CSS settings. This patch is not necessary for 3.4-stable.

It seems that the fix does not work for Firefox. Could you check the patch again?

Sorry, I did not confirm with Firefox.

An examination of "fit-content" showed that a vendor prefix is required.

I rebuilt a patch.

- Resolution set to Fixed

The autoscroll div was wrapping the fieldset, this should be fixed by r18243.
