

Redmine - Defect #31337

Explicitly load redmine/info in order to avoid "uninitialized constant" error

2019-05-10 08:58 - Lluís Gili

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Go MAEDA	% Done:	0%
Category:	Rails support	Estimated time:	0.00 hour
Target version:	4.0.4	Affected version:	4.0.0
Resolution:	Fixed		
Description			
<p>with Rails.env production, where we have:</p> <pre>config.cache_classes = true config.eager_load = true</pre> <p>if you comment this line on lib/redmine.rb</p> <pre>#menu.push :help, Redmine::Info.help_url, :last => true</pre> <p>accessing http://localhost:3000/admin/info crashes with</p> <pre>uninitialized constant Redmine::Info Did you mean? TZInfo app/views/admin/info.html.erb:3:in `_app_views_admin_info_html_erb__3650592729958042480_47028059654180'</pre> <p>rails 5 does not autoload code in production and does not eager_load lib, so shouldn't lib files be moved to app? (or required in a initializer)</p>

#3 - 2019-05-22 01:32 - Go MAEDA

- *Subject changed from move lib to app? to redmine/info should be loaded explicitly*
- *Category set to Rails support*
- *Target version changed from Candidate for next minor release to 4.0.4*

#4 - 2019-05-23 14:14 - Go MAEDA

- *Subject changed from redmine/info should be loaded explicitly to Explicitly load redmine/info in order to avoid "uninitialized constant" error*
- *Status changed from Confirmed to Closed*
- *Assignee set to Go MAEDA*
- *Resolution set to Fixed*

Committed the fix. Thank you for reporting this issue.
