Swaps out the icon-fav for icon-user on projects#index (#31356).

Patch by Jens Krämer.

History

#1 - 2019-05-13 11:07 - Jens Krämer

- File 0001-feature-my-projects-fav-user-icon.patch added

While working on #31355 we (Planio, that is) found that using the fav icon that is also used for watching things is not really appropriate for designating projects the user is a member of. We'd vote for replacing this with the user icon instead on the All projects list, which is what the attached patch does.

I am in favor of this change.

The current "My project" icon "👤" is used as a "Watch" icon in other pages. Therefore, it looks as if those are watched projects (some notifications are sent).

Since "My projects" means "the projects I am a member of", I think that using "icon-user" is reasonable.

Setting the target version to 4.1.0.
