

Redmine - Feature #31373

Previous and next month links in gantt

2019-05-15 17:15 - Go MAEDA

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Go MAEDA	% Done:	0%
Category:	Gantt	Estimated time:	0.00 hour
Target version:	4.1.0		
Resolution:	Fixed		

Description

I think it improves the user interface of gantt if previous and next month links are added in gantt. Actually, Calendar already has such links and you go next or previous month with just one click.

But previous and next month links are not implemented in gantt, so it requires 3 clicks (click the drop-down, select month, click apply) to go to next or previous month. it is really annoying.
