Redmine - Feature #3144

Stop watching a thread

2009-04-08 21:45 - Brad Beattie

Target version:				
Resolution:	Duplicate			

Description

Once you post in a single thread, you're effectively "watching" it. Even if you no longer care about what's happening in the thread, you can't "unwatch" it.

It'd be nice to have "watch"/"unwatch" option like in issues on individual forum threads.

facepalm

Don't know how I missed that one. Apologies.
