Description			
You can quote a note by clicking the comment icon. ScreenShot-2019-06-07-14.11.29.png			
I think this icon is not general as an icon representing a quote. https://fontawesome.com/icons?d=gallery&q=quote https://octicons.github.com/icon/quote/ https://material.io/tools/icons/?search=quote&icon=format_quote&style=baseline			
I suggest changing to the Quotation marks that are used on many websites. e.g. quote.png

Since Redmine 6.0.0 started using Tabler Icons ([#23980](#)), the following icon would currently be a candidate for the new "Quote" icon.
<https://tabler.io/icons/icon/quote>

I replaced it with <https://tabler.io/icons/icon/quote>.
I think it's a good improvement as it makes the difference between regular comments and quotes clearer.

I have also created a patch for a filled quote icon version, considering the possibility that the quote icon may look like the number 9.
Since this is the first time we have included filled style icons in Redmine, we have made some changes for this purpose.
