Target version:				
Resolution:	Invalid			

Description

Hi everyone, i'm a new redmine user and i need to change the list of status (for example, in this form we have 2 option NEW and Resolved) in a specific project. I searched it but i didn't find it. Can you help me? Now, we have 3 status but i need to set to 2 others

tks so much for your support

History

#1 - 2019-06-13 16:36 - Bernhard Rohloff

- Status changed from New to Closed

- Resolution set to Invalid

Hi there!

This issue tracker isn't meant for support requests but for development related topics only.
For further support please head over to the forums. You also find further information about requesting support on the landing page.

Regarding your question I think this article in the wiki provides some good information how to solve your problem.

RedmineIssueTrackingSetup

Kind regards,

Bernhard
