

Redmine - Patch #31573

Show each journal entry from issue history in a box

2019-06-16 16:35 - Marius BĂLTEANU

Status:	New	Start date:	
Priority:	Normal	Due date:	
Assignee:	Marius BĂLTEANU	% Done:	0%
Category:	UI	Estimated time:	0.00 hour
Target version:			
Description IMHO, the issue history doesn't have a clear structure, you need to look after each Gravatar or "Updated by" line to see where the journal starts/ends. In top, there is a border applied on the entire block (left, right and bottom) in order to prevent accidental deletion of an issue (#26662), but for me, even if fixes the confusion with delete buttons, it makes the journal entries harder to be distinguished. I would like to propose the following design changes for the issue history: 1. Show each journal entry in a box (like projects) 2. Connect each journal entry with a small line 3. Apply the red border for the private journals on the entire journal, not only on the text. I'm attaching the patches and the screenshots with before and after. Current: issue_history.png After new_issue_history.png If you like the changes, I think it will be nice to deliver them in 4.1.0 , together with the other UI changes.

Updated the patch series. Screenshots attached.

#11 - 2019-06-25 16:39 - Dmitry Makurin

I would keep journal h4 bottom border since it clearly separates h4' text/contextual with notes content.
