

Redmine - Defect #31595

Error allowing assigning a task to a user when his role does not allow it

2019-06-20 13:04 - Miguel Rodriguez Hernando

Status:	Closed	Start date:	
Priority:	Normal	Due date:

Target version:		Affected version:	4.0.4
Resolution:	Fixed		
Description			
Hi,			
We have found an error in the roles of the users.			
I thought it only happened in version 3.3.1, but it also happens in actual version 4.0.4.			
we have a user called for example <code>"*user1"</code> with a <code>"*reporter"</code> role but in this role the option <code>"*Issues can be assigned to this role"</code> when is disabled.			
It happens that another user with a <code>"*developer"</code> role or any other user that can assign tasks to another user, allows you to assign it to "user1" when it should not be possible because the latter belongs to the role of "reporter".			
It seems that the assignment error occurs when the author of the task is the same as the <code>"*reporter"</code> role.			
Proven environments where it fails			
Redmine version 4.0.4.stable			
Ruby version 2.6.3-p62 (2019-04-16) [x86_64-linux]			
Rails version 5.2.3			
Environment production			
Database adapter SQLite			
Mailer queue ActiveSupport::QueueAdapters::AsyncAdapter			
Mailer delivery smtp			
SCM:			
Subversion 1.9.5			
Mercurial 4.0			
Bazaar 2.8.0			
Git 2.11.0			
Redmine version 3.3.1.stable			
Ruby version 2.3.3-p222 (2016-11-21) [x86_64-linux-gnu]			
Rails version 4.2.7.1			
Environment production			
Database adapter Mysql2			
Best Regards
