Description

Hello Jean-Philippe,
I think it would be more helpful to show who has an issue assigned, instead of who created the issue. The change is simple - should I send a patch?

```
muro
```

(I think there is only one line in the project controller and a few lines in project/list_issues.rhtml)

History

You're right, there's not many things to change.

Idealy, i should allow to easily customize the columns that are displayed. Maybe after the 0.5 that should be released in a few days.

(Just a quick pool) Are there any other people interested in having the "Assigned to" column in the issue list ?

#2 - 2007-04-04 19:24 - Jeffrey Jones

Yes! I have already made the change (although I added the assigned to rather than replaced the author) in my local copy although I agree that the author field isn't really a priority field in our eyes.

#3 - 2007-04-05 03:34 - Jean-Philippe Lang

Done. I also added the "Assigned to" column in the csv export.

Great, thanks! I'm replacing my change with yours - one less thing to merge when updating :-).
