

Redmine - Defect #31624

Query clear button does not clear sort options if using a custom query

2019-06-25 15:22 - K G

Status:	Needs feedback	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Issues filter	Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:	Cant reproduce		
Description			
When using a custom query that uses a specific sort, if you select the clear button - the filters are cleared but the pre-defined sort is not cleared. Tested in 3.x and 4x.			

History

#1 - 2019-12-08 06:43 - Go MAEDA

- Status changed from New to Needs feedback
- Resolution set to Cant reproduce

I cannot reproduce. Could you describe detailed steps to reproduce the issue?

The steps I tried were:

1. Sort issues by status
2. Save as a query named "Sort by status"
3. Apply "Sort by status" query
4. Click "Clear"

The issues list was sorted by id after I clicked "Clear".
