in my case, the trouble was an i18n issue + case-sensitive fs. (pt-BR != pt-br)

fix at <http://github.com/qmx/redmine/commit/7da4ef99a20d5b1af3d2c1db407e570a3c48d1dc>

I've lowercased the i18n lang "tag"

Thanks. It was also my case. Problem is solved with your patch.

#6 - 2009-04-24 14:38 - Rodrigo Rosenfeld Rosas

I'll create another ticket since this one is marked wrongly as resolved.

#7 - 2009-04-24 14:40 - Rodrigo Rosenfeld Rosas

Ticket #3236 was created.

#8 - 2009-04-24 17:35 - Jean-Philippe Lang
