

Redmine - Defect #31731

issues page - not logged in user (HTML structure errors)

2019-07-15 16:14 - Roman Kharchenko

Status:	Needs feedback	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Issues	Estimated time:	0.00 hour
Target version:		Affected version:	4.0.4
Resolution:			
Description			
<p>The structure of html for logged and not logged in is different. can you make it the same?</p> <p>1 Logged on users. Inside the "issue" block there are child blocks - attachments, issue_tree, relations http://prntscr.com/ofan0u</p> <p>In the case of a non-logged one, these blocks are not parental, but neighbor blocks - http://prntscr.com/ofaqcd</p> <p>I would like to get a single structure.</p> <p>2 items without tag - <td></td> http://prntscr.com/ofajwa http://prntscr.com/ofakyy</p>			

History

#1 - 2020-06-29 06:27 - Go MAEDA

- File 31731-html-structure.png added

- Status changed from New to Needs feedback

I did not find any difference in the structure of the HTML whether the user is logged in or not. It seems you are using a plugin to display a checklist.
Could you check again without plugins?

Comparison: (left = logged in, right = anonymous access)
