Target version:	6.0.0		
Resolution:	Fixed		
Description			
Hello,			
I have a problem with done ratio. I want to add more % values like 5%, 15% etc., because i have more than 11 statuses. Is there any possibility to do this?			
Best Regards, Elliot

Currently not possible. The options are hardcoded into the Issue form.

Seems you would have to write a plugin for that yourself. (A simple Javascript script that replaces the options of the issue edit form select box should do the trick)

OT but nevertheless:

I don't think so. This plugin overrides `/app/views/issues/_attributes.html.erb` with a version that is last updated on the 30th of October 2013. That most likely won't work at all or at least give a bunch of other problems with more recent Redmine releases.

Make sure you know what plugins you decide to use and always check their sources.

I frequently receive requests from my customers to enter the done ratio in 5% increments, so I wrote a patch to implement this feature.

The attached patch allows admins to change the options in the done ratio select box to 5% increments.

I think we should make this configurable as a new administration setting available only when `DONE_RATIO_OPTIONS` is `issue_field`. If we add this as a new option for `DONE_RATIO_OPTIONS` and we have some specific behaviour based on `issue_field` it will be necessary to check for both options every time.

Thank you for the comment. I will update the patch as such.

- File 31756-v3.patch added

Updated the patch.

- Added a new setting "Done ratio options step size"
- Supported the default done ratio of issue statuses
- Supported the done ratio of fixing keywords of repository settings

The "Done ratio options step size" setting is enabled even when `Setting.issue_done_ratio` is issue_status` because the new setting has an effect on the default done ratio of issue status.`

Looks good to me now!

#15 - 2024-05-29 17:09 - Go MAEDA

- Subject changed from Add more values to done ratio to Introduce configuration for done ratio options interval
- Status changed from New to Closed
- Assignee set to Go MAEDA
- Resolution set to Fixed

Committed the patch in [r22849](#).

A setting "Done ratio options interval" has been added in Administration > Settings > Issue tracking. You can choose "5 %" or "10 %" in the setting.

#16 - 2024-10-23 06:53 - Go MAEDA

- Subject changed from Introduce configuration for done ratio options interval to Introduce setting for done ratio options interval
