Redmine - Feature #31756

Add more values to done ratio

Description

Hello,

I have a problem with done ratio. I want to add more % values like 5%, 15% etc., because i have more than 11 statuses.
Is there any possibility to do this?

Best Regards,
Elliot

Currently not possible. The options are hardcoded into the Issue form.

Seems you would have to write a plugin for that yourself. (A simple Javascript script that replaces the options of the issue edit form select box should do the trick)

Perhaps this is what you are looking for in the mean time...

OT but nevertheless:

I don't think so. This plugin overrides */app/views/issues/_attributes.html.erb* with a version that is last updated on the 30th of October 2013. That most likely won't work at all or at least give a bunch of other problems with more recent Redmine releases.

Make sure you know what plugins you decide to use and always check their sources.

+1 IMPORTANT!
I currently have the same problem!
