

Redmine - Defect #31815

After edition document's attachment redirecting to home page

2019-07-29 09:50 - Evgeny Zhiryakov

Status:	Needs feedback	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Attachments	Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:			

Description

Database manager version: MariaDB 10.1.38
Ruby version: Ruby 2.3.3
Rails version: Rails 5.2.3
Redmine version 4.0.4

Steps to reproduce

1. Go to "Documents" tab
2. Create if not exists a new document with attachment
3. Start edit attached file by pressing "Pencil" icon
4. Change or add information in fields
5. Press "Save" button

Actual result

After saving redirecting to home page.

Expected result

Return to "Documents" tab in same project.

History

#1 - 2019-08-13 10:31 - Martin Rys

Also experiencing this when editing wiki attachments.

Started PATCH "/attachments/wiki_pages/1769" for 10.80.60.1 at 2019-08-13 10:25:36 +0200
Processing by AttachmentsController#update_all as HTML
Parameters: <REDACTED>
"commit"=>"Save", "object_type"=>"wiki_pages", "object_id"=>"1769"
Current user: rys@company.com (id=872)
Redirected to http://helpdesk.company.com/
Completed 302 Found in 52ms (ActiveRecord: 10.9ms)
Completed 200 OK in 183ms (Views: 128.0ms | ActiveRecord: 29.0ms)

Environment:

Redmine version	4.0.2.stable
Ruby version	2.5.5-p157 (2019-03-15) [x86_64-linux]
Rails version	5.2.2
Environment	production
Database adapter	Mysql2
Mailer queue	ActiveJob::QueueAdapters::AsyncAdapter
Mailer delivery	smtp

SCM:

Subversion	1.12.0
Git	2.19.1
Filesystem	

Redmine plugins:

periodictask	4.1.0
redmine_agile	1.4.10
redmine_percent_done	1.1.0
redmine_silencer	0.4.3

#2 - 2019-10-06 11:33 - Go MAEDA

I could not reproduce the behavior. Redirected to the wiki page the attachment belongs.

```
Started PATCH "/attachments/wiki_pages/4" for ::1 at 2019-10-06 18:30:26 +0900
```

```
.
```

```
Redirected to http://localhost:3000/projects/ecookbook/wiki/Page_with_an_inline_image  
Completed 302 Found in 28ms (ActiveRecord: 4.4ms)
```

#3 - 2022-12-13 14:48 - Dimitar (RedmineUP)

Dear Martin,

This is Dimitar from the **RedmineUP** Support Team.

I see that you have some of our plugins on your list:

```
redmine_agile
```

So, could you please contact our support team at support@redmineup.com? And our support engineers will help you investigate the situation.

We look forward to hearing from you.

Best Regards,

Dimitar from the RedmineUP Support Team

- Status changed from New to Needs feedback

The attachments controller (and several other places in Redmine) rely on the back_url Parameter which is sent along with the update form. I assume you have redacted this parameter along some others in [#31815#note-1](#).

As we validate that this given URL, it might be that it was rejected. To be sure, please send another example log where you observed this issue. Make sure to include the back_url parameter from the logs.

If no back_url was sent, it might be that the previous URL contains invalid characters and was rejected accordingly. In that case, we would need examples of URLs where you observe this issue (where you might redact the hostname and other identifying parts, but must keep the structure and reproducibility in place).
