Category:		Estimated time:	0.00 hour
Target version:			
Resolution:	No feedback		
Description It would be great to have possibility of inserting multiples trackers ids and multiple status id via the REST API. Example: GET /issues.xml?project_id=2&tracker_id=1,2,9 and GET /issues.xml?status_id=3,5,7			

History

#1 - 2019-09-03 11:07 - Go MAEDA

- Status changed from New to Needs feedback

The API already supports multiple IDs. Please use '|'. Does this work for you?

GET /issues.xml?status_id=3|5|7

#2 - 2020-02-29 13:13 - Go MAEDA

- Status changed from Needs feedback to Closed

- Resolution set to No feedback
