Target version:			
Resolution:		**Affected version:**	

Description

Do not delete parent issues that have child issues please

--jp--
子チケットがあるチケットを削除した場合、子チケット含めて消えてしまいます
子チケットがある親チケットを削除できないような制限をかけてもらえませんか?

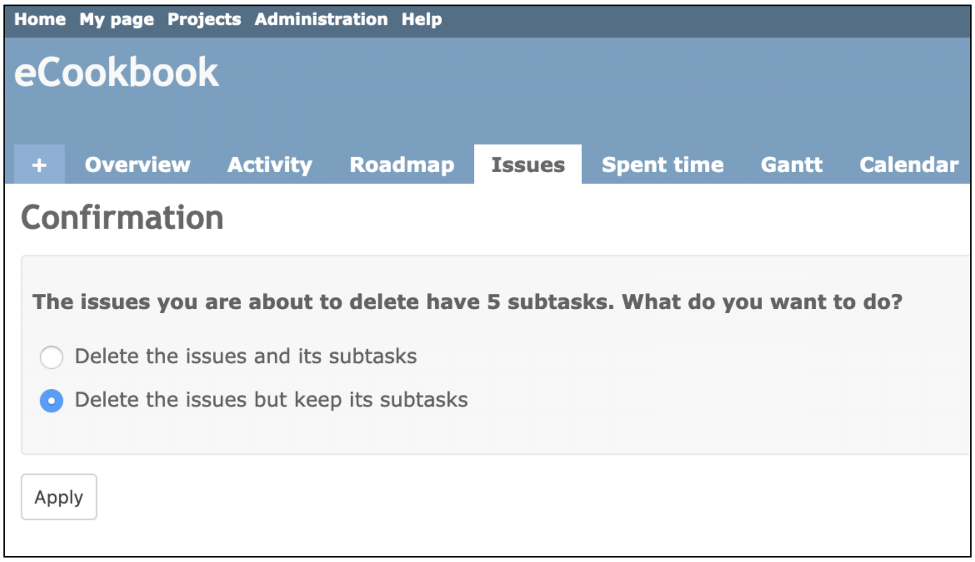
History

#1 - 2019-09-11 11:24 - Go MAEDA

- File parent-issue-deletion-confirmation@2x.png added

- Category set to Issues

+1
How about showing a confirmation dialog like the following instead of disallowing to delete a parent issue? In the current versions, a similar dialog is shown when deleting an issue which has spent time logs.



Confirmation

The issues you are about to delete have 5 subtasks. What do you want to do?

○ Delete the issues and its subtasks
● Delete the issues but keep its subtasks

#2 - 2019-09-11 13:00 - Bernhard Rohloff

+1
Sounds like a great idea and prevents the user from unforeseen side effects.

#3 - 2019-09-12 09:39 - Hirofumi Kadoya

Go Maeda,good!
I would like to request the same way
