Redmine - Defect #32049

Redmine allows same user to login from different machines simulteniously

2019-09-11 12:57 - Amit Mehendale

Status:	Closed		**Start date:**	
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	Accounts / authentication		**Estimated time:**	0.00 hour
Target version:				
Resolution:	Wont fix		**Affected version:**	4.0.4

Description

Using Redmine 4.0.4

Able to Login using same user credentials from different machines at same time.

Expected :- If user is already logged in on 1 machine then it should not allow user to log-in on other machine.

Thanks

History

#1 - 2019-09-16 20:11 - Matthew Paul

This is not a bug imho - I am often logged into multiple machines and devices and would like it to remain that way

#2 - 2019-09-17 01:16 - Go MAEDA

- Status changed from New to Closed

- Resolution set to Wont fix

This is the expected behavior, not a defect.

The number of maximum simultaneous logins for a user is controlled in app/models/token.rb. If you don't want to allow the behavior, change the code as follows:

```
diff --git a/app/models/token.rb b/app/models/token.rb
index 8e93918ec..7922d24b6 100644
--- a/app/models/token.rb
+++ b/app/models/token.rb
